# A CHALLENGE TO THE WORLD!

CHILSON'S PATENT TRIO STOVE. Trio Portable Furnace.

SIX SIZES.

The Cut of this remarkably economical Stove will enable every intelligent mind to comprehend, at once, the great economy in fuel secured by this strictly philosophical invention. Its extensive use has proved, and we can safely warrant a saving of fifty per cent. in fuel over any other plan of stove known.

THREE SIZES.

This Furnace is the same in principle as the Trio Stove. We warrant a saving of fifty per cent. in fuel over the common Portable Furnaces. It is made of substantial, heavy castings, and is not liable to rust and burn out, or leak gas, as is the case with the common portable furnaces, made partially of sheet iron Stoves, Furnaces, Ranges, Mantels, Grates, Registers, Ventilators, &c., as usual.

Special attention given to warming and ventilating buildings.

## P R E F A C E .

In presenting this, the eighth edition of the Salem Directory, to the Citizens, the Publishers believe it will exceed in usefulness and interest any previous edition.

The number of names added is 1686, struck out 1308, other changes 1869.

The number of names in the last edition was 5777, in the present 6155, making an increase of 378.

Thankful for all assistance and encouragement, we offer the work, hoping it will meet the wants of its patrons.

**STATE NORMAL SCHOOL AT SALEM.**

Resolves to establish a State Normal School in the County of Essex, were finally passed by the Legislature, April 16, 1853. The Board of Education, at their meeting held on Thursday, June 2, 1853, decided to locate the same in Salem. The city of Salem furnished the site formerly occupied for the Registry of Deeds, on the corner of Summer and Broad Streets, erected and furnished the building to the acceptance of the Board, and received the six thousand dollars appropriated for that purpose by the Legislature. On Saturday, Sept. 3, 1853, workmen commenced to remove the old building. The new edifice, two stories high, sixty-seven feet square, built of brick,

was dedicated on Thursday, Sept. 14, 1854, Gov. Washburn presiding, and the address by Ex-Gov. Boutwell.

TEACHERS.—Richard Edwards, *Principal*. Martha Kingman, Elizabeth Weston, Phoebe A. Breed and Sarah R. Smith, *Assistants*.

Number of scholars, 86. Scholars are admitted twice a year, on the second Wednesdays of March and September. Tuition free. Scholars are required to declare their intention to teach in the schools of the Commonwealth. This school is intended for females.

In April, 1852, a law was passed, dividing the State into eleven districts, each district to elect one representative to Congress. The above cities and towns having a \*, form District No. 6. The remaining towns in the county of Essex, with Charlestown, Burlington, Lexington, Malden, Medford, Melrose, Reading, Somerville, South Reading, Stoneham, Waltham, West Cambridge, Wilmington, Winchester, and Woburn, in the County of Middlesex, form District No. 7.

## PRESIDENTIAL ELECTIONS.

The following is a correct statement of the electoral votes given to the various candidates for President and Vice President of the United States, since the adoption of the Constitution. It should be observed that at the first four elections the Colleges of Electors were required to vote for two persons, the highest of whom should be President, and the next highest Vice President, of the United States. In consequence of the equal vote between Jefferson and Burr, in 1800, the Constitution was amended so as to require the President and Vice President to be voted for separately, as at present.

1789—FIRST TERM.

TEN STATES, ENTITLED TO 73 VOTES.

|                        |    |                         |   |
|------------------------|----|-------------------------|---|
| George Washington..... | 69 | George Clinton .....    | 3 |
| John Adams .....       | 24 | Samuel Huntingdon ..... | 2 |
| John Jay.....          | 9  | John Milton.....        | 1 |
| Robert Harrison.....   | 6  | James Armstrong.....    | 1 |
| John Rutledge .....    | 6  | Edward Telfair .....    | 1 |
| John Hancock .....     | 4  | Benjamin Lincoln .....  | 1 |

George Washington was unanimously elected President. New York, Rhode Island and North Carolina not having at the above time ratified the Constitution, chose no electors. Two votes of Virginia and two of Maryland were not given.

### 1792—SECOND TERM.

FIFTEEN STATES, ENTITLED TO 135 VOTES.

|                         |     |                        |   |
|-------------------------|-----|------------------------|---|
| George Washington ..... | 132 | Thomas Jefferson ..... | 4 |
| John Adams .....        | 77  | Aaron Burr.....        | 1 |
| George Clinton.....     | 50  |                        |   |

George Washington was again unanimously elected President, and John Adams, by a plurality of votes, Vice President. Two votes of Maryland and one of South Carolina were not given.

### 1796—THIRD TERM.

SIXTEEN STATES, ENTITLED TO 138 VOTES.

|                       |    |                          |   |
|-----------------------|----|--------------------------|---|
| John Adams .....      | 71 | John Jay .....           | 5 |
| Thomas Jefferson..... | 68 | James Iredell .....      | 3 |
| Thomas Pinckney ..... | 59 | Samuel Johnson.....      | 2 |
| Aaron Burr .....      | 30 | George Washington .....  | 2 |
| Samuel Adams .....    | 15 | J. Henry.....            | 2 |
| Oliver Ellsworth..... | 11 | Charles C. Pinckney..... | 1 |
| George Clinton.....   | 7  |                          |   |

John Adams was elected President, and Thomas Jefferson Vice President. During this administration were passed the famous "Alien and Sedition Acts."

### 1800—FOURTH TERM.

SIXTEEN STATES, ENTITLED TO 138 VOTES.

|                       |    |                          |    |
|-----------------------|----|--------------------------|----|
| Thomas Jefferson..... | 73 | Charles C. Pinckney..... | 64 |
| Aaron Burr .....      | 73 | John Jay .....           | 1  |
| John Adams.....       | 65 |                          |    |

No choice by the people. The House of Representatives, after balloting six days, on the thirty-sixth ballot elected Thos. Jefferson President. Aaron Burr was, of course, elected Vice President. Maryland voted for Burr on the first ballotings, and finally decided the Presidency, on the thirty-sixth ballot, for Mr. Jefferson.

## 1804—FIFTH TERM.

SEVENTEEN STATES, ENTITLED TO 176 VOTES.

Constitution altered.

# MAYNARD & NOYES'S BLACK WRITING INK.

The manufacture of this Ink was established in 1816, and the quality has now been tested by the public for *forty years*. During this time it has been constantly increasing in public favor and patronage, and is now the leading article in the country. Those who may be ignorant of its superiority and reputation, are invited to read the following testimonials, and to make trial of it themselves. When the best judges, after using it twenty and more years, express themselves in one manner concerning its superior excellence, it is quite evident that no one *need* be troubled with *bad Ink*.

Office of Merchants' Ins. Co.  
Boston, Nov. 18, 1843.

Messrs. Maynard & Noyes,

I have used your Writing Ink for the last sixteen years. In 1840, I gave you a certificate of its excellence, and having continued its use ever since, to my entire satisfaction, my opinion is confirmed in its superiority. *It flows freely from the pen, and is in all respects the best Ink I have ever used.* The other officers in the institution agree with me in the opinion here expressed.

GEORGE HOMER, Sec.

Boston, May 27, 1846.

For twenty years past I have had occasion to use ink daily, and sometimes for the nicest of penmanship; occasionally, necessity or curiosity has led me to make use of the article made by different individuals,—*but I can cheerfully state that I have never found any that combined so many good qualities as that made by Maynard & Noyes.*

N. D. GOULD,  
Teacher of Penmanship.

Registry Deeds, Boston, Nov. 20, 1847.  
Messrs. Maynard & Noyes,

I have made use of your Writing Ink for the recording of Deeds, &c., the past *twenty-five* years, and having found it to suit my wishes and purposes entirely, take pleasure in renewing my testimonial of its superiority. From the appearance of the Records in my office, I am satisfied it is superior to any I have used, and consider it particularly adapted for all purposes, where *permanency of color is requisite or desirable.* *It flows well from the pen, and does not mould; and my oldest Records prove its color to be unalterably black.*

H. ALLINE, Register of Deeds.

## COPYING INK.

This Ink gives a copy as distinct and perfect as the original, and combines all the properties of our Writing Ink. This quality particularly adapts it to Counting House use, as it answers all the purposes for which a Writing Liquid is wanted. Also, **Blue, Red and Carmine Inks.** Those Inks for beauty and brilliancy of color are unequalled.

For sale by the Manufacturers, No. 11 Merchants Row, Boston, and by Stationers and Booksellers generally in the City and States.

Boston, Jan. 10, 1848.

Messrs. Maynard & Noyes,

Gentlemen,—It is now, I believe, more than twenty years since the School Committee passed an order for using your Black Writing Ink in the City Schools. I have used it during that period, and deem it a *first rate article*, and cheerfully recommend it to others. *It flows freely from the pen, and increases in blackness after being committed to paper, and the color is durable.* I know of no Ink equal to yours, and I have tried many kinds, both English and American.

P. MACKINTOSH, JR.  
Principal of the Writing Dep.  
Hancock School.

Boston, Oct. 15, 1849.

Messrs. Maynard & Noyes,

Gentlemen,—Your note of the 10th inst., asking us to state the length of time we had used your Writing Ink, and our opinion of its quality, was duly received. We have made use of it generally for the last twenty years, and have found it always of satisfactory quality, being free from those objectionable points so troublesome and common in writing liquids generally. Wishing for it a still more extended sale, we are, gentlemen,  
Your obdt. servts.,

J. M. BEEBE & CO.

Boston Post Office, Dec. 4, 1851.

Messrs. Maynard & Noyes,—Gentlemen.—In 1843 I certified to the superior quality of your Writing Ink. I have continued to use it ever since that time, and take pleasure in expressing, as I then did, my entire satisfaction with it. It has now been used in this office more than twenty years. Other inks have during that time been tested, but yours has been in every instance preferred. *For fluidity, blackness and permanency, none has been found equal to it.*

I am very glad of the improvement in the action. These instruments, likewise, are of excellent tone, owing, no doubt, to the perfection of the scales.

BOSTON.

---

The undersigned, late Principal Examiner in the United States Patent Office at Washington City, has resigned his office for the purpose of establishing an Agency in Boston for procuring Patents in this, and foreign countries.

His long official connection with the Patent Office has rendered him familiar with its rules and practice, and with the history of invention in this and other countries; and this experience, with the frequent visits which he proposes making to the Patent Office, justifies him in saying that his Agency will offer to inventors all the advantages of one located in Washington, and, in addition, those which result from a residence in the midst of mechanical and manufacturing industry.

From the Hon. CHARLES MASON, Commissioner of Patents.  
U. S. PATENT OFFICE, Feb. 28, 1855.

I take great pleasure in stating that during the time I have been acting as Commissioner of Patents, Samuel Cooper, Esq., of Boston, has been engaged as solicitor, and has been in that capacity in constant correspondence and intercourse with the office; he has evinced a thorough acquaintance with Patent Law, and with the rules and practice of the Office, a close attention to the interests of his clients, and a marked candor and courtesy that have rendered the transaction of business with him a pleasure. I have no hesitation in stating that I regard him as one of the very best agents for the transaction of business with this Office with whom I am acquainted.

# A BOOK FOR BOTH SEXES.

## THE PHYSIOLOGY OF MARRIAGE.

BY A MARRIED MAN AND DISTINGUISHED PHYSICIAN.

It is one of the most remarkable books which has been published in any country. In language simple, decorous and respectable, and in terms of fatherly kindness, it reveals to the young of both sexes, a fund of information, chiefly inaccessible in any reliable form, and for want of which, many have been prompted to resort to sources either of questionable authority or immoral tendency. The work is written by one of our oldest and most experienced medical men, who has devoted a long life to the study of Physiology. The work was examined in manuscript by competent judges, and pronounced to be as unexceptionable as any work which has appeared in the English language. It breathes, moreover, a truly Christian spirit. The following, briefly, are its contents :

- |                                                      |                                                |
|------------------------------------------------------|------------------------------------------------|
| Chap. 1. The True Relation of the Sexes.             | Chap. 7. Physical Laws of Marriage.            |
| Chap. 2. Premature Marriage and its Consequences.    | Chap. 8. A Fundamental Error.                  |
| Chap. 3. Errors of Education.                        | Chap. 9. The Laws of Pregnancy.                |
| Chap. 4. Errors of Courtship.                        | Chap. 10. Crime without a name.                |
| Chap. 5. Individual Transgression and its Penalties. | Chap. 11. The Laws of Lactation.               |
| Chap. 6. Social Errors and their Punishment.         | Chap. 12. A Crime that ought not to be named.  |
|                                                      | Chap. 13. Directions to Parents and Guardians. |
|                                                      | Chap. 14. General Directions.                  |

This Book is destined to produce a Physiological Revolution in this country. It will have an immense sale, because it concerns us all, both male and female.

The Editor of the Evening Traveller, Boston, uses the following strong language in noticing it :—

"THE PHYSIOLOGY OF MARRIAGE.—By an old Physician, 16mo, 259 pages. John P. Jewett & Co. A book that should be read by every man and woman in the land—married or unmarried. It treats of topics of vital interest, but of which not one in a thousand know anything; who, in consequence of their thoughtless ignorance, more than wilful sinfulness, violate the laws of health, and even life; bring upon themselves suffering and wo, and upon their offspring enfeebled constitutions, disease and early death. These topics are of a delicate and difficult character, and for this reason good men who were capable of treating them, have avoided them. But every reader of 'The Physiology of Marriage,' unless utterly perverted in his tastes and imagination, will admit, on reading these pages, that the 'old physician' has dealt with these important topics as an aged father would be likely to do when addressing a beloved child. His instructions and counsels are so plain that none need mistake them, while there is nothing in them to minister to a perverted and prurient taste." Price, 75 cents.

**NEW IMPROVED ACTION,**

Which is simple in its construction, very sensitive to the most delicate touch, operates without a spring, (an advantage possessed by no other action,) and therefore requires little if any regulating, by the changes of weather or climate; combines all the most desirable qualities sought for, during the last twenty years. For which a medal was awarded at the last Fair of the Massachusetts Charitable Mechanic Association. These instruments are all prepared for Coleman's patent.

**ÆOLIAN ATTACHMENT,**

In which there is combined with the Pianoforte, a Wind Instrument, the same key-board controlling both in such a manner, that either can be used separate, or both together, thus furnishing an instrument for Organ, or Piano music, or that may be combined at the pleasure of the performer, in orchestral effects.

**IRON FRAMES.**

From a knowledge of the fact, that Pianofortes made without metallic frames, (as was the case in some of the first to which the Æolian was applied,) were constantly subject to variations in pitch by changes of temperature, many persons have honestly supposed it impracticable, and inexpedient, to combine a Wind, with a Stringed Instrument. But having the strings connected with the entire iron frame at both ends, (as all are now made by this firm,) entirely obviates this difficulty. The strings and frame expanding and contracting together, which preserves a uniform pitch in the Piano, so that no additional tuning is required over the ordinary Pianoforte, to keep the Piano in tune with the Reeds.

**MEDALS AND DIPLOMAS**

Have repeatedly been awarded to these manufactures, in Boston, New York, Philadelphia, and other places, but have never, in any advertisement, handbill or circular, been alluded to in a single instance, by them, having always relied upon the character of their instruments, which have now been before the public about thirty years.

**MEDALS (1856) AWARDED.**

At the last exhibition of the Massachusetts Charitable Mechanic Association, they were awarded **SILVER** and **BRONZE MEDALS**, for **Grand and Square Pianofortes**. Also at New York and Baltimore.

☞ All orders by mail, or otherwise, as faithfully executed as if the parties were personally present, and will be warranted to give satisfaction.

# A. H. WOOD'S PATENT GAS BURNER.

Patented Nov. 9th, 1852. Claim granted by the Patent Office of the United States as follows, to wit:

What I claim as my invention, and desire to have secured to me by Letters Patent, is the use in a Gas Burner of a distributor constructed substantially as above described, for the purpose of producing a steady jet, or flame, and for preventing the blowing and waste of Gas in the Burner.

A portion of the public may consider it a hazardous attempt to call their attention to improvements in the use of Gas for luminous purposes at the present time, when so strong a prejudice exists, occasioned by speculation; but knowing that much imperfection does exist in its use, and being confident that my improvements and suggestions have been sustained, and satisfactory for years, I would respectfully solicit an examination of my burners, &c., where they are in use, and at my Office, 86 Court Street, Boston.

## REFERENCES.

T. Metcalf & Co., Apothecaries, 39 Tremont st., Boston, Mass. H. K. Oliver, Agent of the Atlantic Cotton Mills, Lawrence, Mass. J. G. Blake, Furniture and Upholstery Warehouse, 12 to 24 Cornhill, Boston, Mass. B. Heineman, Importer and Dealer in Jewelry, 231 Washington st., Boston. Valley Falls Company, Valley Falls, R. I. John B. Herman & Co., No. 166 Washington st., Boston, Mass.

I would state to the consumers of Gas that the greatest safety against the foul dealings which now exist in its use, is for each one to examine and become better acquainted with its nature, use, &c.

In so doing, it will be perceived that to obtain a good and satisfactory light from  $2\frac{1}{2}$  to 3 feet of Gas per hour, as indicated by a metre, will require an acute application.

Monday, of each week, will be more especially devoted to experimenting with burners, and giving such information, as may lead to the preservation of health, and the greatest economy and satisfaction in the use of it.

As space will not admit, suffice it to say please notice Circular of July, 1856. Title, "Hints to Gas Consumers." To be obtained at my Office, 86 Court st., Boston, Mass.

In that Circular appears the testimony of a few responsible persons who have tested carefully, the utility of my improvements, and reported the hourly consumption of Gas per burner, to be less than three feet, and producing a good and satisfactory light.

# BOOK, JOB AND FANCY PRINTING,

Executed at the Office of the

## SALEM GAZETTE,

AND

Essex County Mercury,

IN THE BEST STYLE AND ON FAVORABLE TERMS.

## THE SALEM GAZETTE,

Established, Weekly, 1768; Semi-Weekly, 1796,

Is printed on TUESDAY and FRIDAY mornings, at \$3.50 per year when paid in advance,—\$4.00 when not in advance. The length of time which it has been before the public, and the extensive circulation it has obtained for the larger part of a century, render it unnecessary here to enter into a formal exposition of its character. The intention is that it shall always contain the most important foreign and domestic intelligence, political, moral and literary; original communications upon all subjects connected with the public welfare; a full and correct shipping list; business advertisements; and, in short, everything that is usually found and expected in a Family Newspaper.

The large Country circulation of the Gazette, (including the Mercury, in which all new advertisements of the Gazette are published,) renders it particularly valuable as a medium for the publication of Probate advertisements, sales of Real Estate, and other notices of interest to the farming population.

## THE ESSEX COUNTY MERCURY,

OR WEEKLY SALEM GAZETTE,

ESTABLISHED A. D. 1832,

Is made up from the reading matter of the Salem Gazette, and is one of the largest and cheapest papers in New England. The subscription price is \$1.50 per year, when paid in advance. The quantity of reading afforded is much greater than is usually found in a Newspaper; and, as it circulates extensively in all parts of the County of Essex, particular pains are taken to present all the local matters of the County. The Mercury is published every Wednesday morning; the price, when not paid in advance, is \$2 per year, payable semi-annually.
